## TECHNICAL SKILLS & CORE COMPETENCIES

---

React | JavaScript | HTML | CSS | TypeScript | NodeJS | Git | npm | Google Cloud | Heroku | Express  
Internal/External Audit | Sarbanes-Oxley | Project Management | Risk Management | Workday | Information Security | JIRA

## PROFESSIONAL EXPERIENCE

---

**PricewaterhouseCoopers** – Florham Park, NJ

10/2019 – 05/2022

*Risk Assurance Senior Associate / Workday Advisor*

- Performed Sarbanes-Oxley ITGC testing and supported clients in enhancing new and existing IT controls
- Strengthened policies and procedures through identifying control vulnerabilities and developing remediation plans.
- Managed multiple ongoing audit projects with teams consisting of on and off shore members.
- Evaluated the risks of audit findings, proposed remediation strategies, and developed mitigation controls accordingly.
- Provided audit guidance to teams across the company for Workday.

**Focal Point Data Risk** – New York, NY

09/2017 – 10/2019

*Project Advisory & Internal Audit*

- Identified risks, developed audit test plans and procedures, and executed audit testing to conclude on ITGC controls.
- Assisted with project management, including budgeting across various aspects of the engagement and helping clients improve security.
- Coordinated with external auditors (Big 4 accounting firms), on behalf of the client, and assisted in managing various audit issues including optimizing their reliance on internal audit work.
- Performed implementation testing in Workday; documented and tracked risks and issues for the team to address prior to the go-live phase with the new cloud ERP system.

## PERSONAL PROJECTS

---

**Portfolio Site** - <https://ollebac.dev>

React, JavaScript, HTML, CSS, Google Cloud

- Designed and developed a portfolio site for personal use.
- Referenced and researched UI design through articles, YouTube, and observation to better personalize the design.
- Developed a personal styling standard and applied it to a CSS module system to be reused for further personal projects.
- Collaborated with illustrators and graphic designers for their expertise and contributions to the site.

LinkedIn: [www.linkedin.com/in/iancabello](https://www.linkedin.com/in/iancabello)

## Weather Application

JavaScript, Handlebars, Express, CSS, Heroku

- Developed a site on Heroku that allows a user to obtain the local weather forecast.
- Application makes use of Handlebars and Express to render content to the pages.
- Utilizes responses from multiple API calls to return the current weather of the requested location.

## Drag and Drop Application

TypeScript, HTML, CSS

- Created a simple drag and drop application that displays a list of uncompleted and completed projects. The user can add projects to the uncompleted list and drag them to and from the completed list as needed.

## EDUCATION

---

**William Paterson University** - Wayne, NJ

**2013 - 2017**

*Bachelor of Science in Computer Science*

Dean's List (2013 - 2017)

Computing and Information Honor Society Member | Founding Member of Alpha Kappa Psi Business Fraternity
